

Mehran Gul is the Lead for Digital Enterprise at the World Economic Forum in Geneva. His work focuses on topics at the intersection of technology and business. Specifically, he works with global business leaders to develop strategies to ensure their digital transformation investments results in tangible outcomes. Mr Gul previously served as an Expert at the United National Industrial Development Organization (UNIDO) where he advised governments on the role of higher education and entrepreneurship on industrial policy. He received his graduate degree in International Relations from Yale where he was a Fulbright scholar and a Fox International Fellow. He has been a visiting scholar at the Jawaharlal Nehru University in New Delhi, a Global Leadership Fellow at the World Economic Forum, and a regional fellow with the Acumen Fund. He is a recipient of the McKinsey/Financial Times Bracken Bower prize for writers and is currently authoring a book on The New Geography of Innovation which charts the rise of global technology hubs. It will be published by HarperCollins in the UK and Simon & Schuster in the US.
