EPISODE 33: SHOW NOTES AND ACTION ITEMS

In this episode Mike and guest Aaron Osmond explore the AWS cloud from an industry perspective and discuss how emerging technologies in the cloud space are impacting the need for technicians as well as the skills technicians will need today and in the future of work.

Aaron emphasized two important Amazon initiatives:

- ➤ AWS Academy
- ➤ AWS Educate

The **AWS Academy** helps bridge the gap between industry and education and provides a free, ready-to-teach cloud computing curriculum that prepares students to pursue industry-recognized certifications and in-demand cloud jobs.

Through **AWS Educate**, students have access to content developed to skill up for cloud careers in growing fields. AWS Educate also connects companies hiring for cloud skills to qualified student job seekers with the AWS Educate Job Board.
