

EPISODE 36: SHOW NOTES AND ACTION ITEMS

In today's interview you heard Phil talk about predictive maintenance. To get a broader perspective see this 2020 Supply Chain Management review article [MRO: The Challenges of Moving from Preventative to Predictive Maintenance](#).

Phil felt that OEE (Overall equipment Effectiveness) was very important. Review [this article](#) in Industry Week, that says: *Put simply, OEE assigns numerical value to improvement opportunity. It factors in the availability, performance, and quality of output of a given piece of equipment and tells you this: How much right-first-time product did this machine produce compared to what it should have produced in the allocated time?*

Visit the [National Center for Supply Chain Automation](#) for additional resources for educators and information on certifications.
