

EPISODE 37: SHOW NOTES AND ACTION ITEMS

Our guests were Kristine Christensen and Chuck Bales and they shared with us how they have teamed up with faculty in other disciplines to reimagine instruction and equip students with the array of skills they'll need to meet the demands of the future of work.

They provided a key link to resources at the [IoT Educator's Academy](#). You will find courses, workbooks and reports of interest.

For more information email Kristine Christensen at christensen@morainevalley.edu or Chuck Bales at bales@morainevalley.edu.
