

EPISODE 41: SHOW NOTES AND ACTION ITEMS

In today's interview you heard Jake Hall talk about the emerging manufacturing technologies and the implication for technical education. Your task is to check out the interesting content on automation, manufacturing and robotics on Jake's LinkedIn page, <https://www.linkedin.com/in/jacobrhall/>

Check out Jake's video interview on Robotic Wire Arc Additive Manufacturing with 3D Vision. *On-Demand Manufacturing will be vital in helping solve the supply chain issues. Wire and Arc Additive Manufacturing WAAM can use various materials like Cobalt, Copper, Titanium, Iron, and Nickle to produce and build complex and large components on-site.* It's just one of many informative videos.
